

## *Radio Stamps*

Neil Carleton

☐ P.O. Box 1644, Almonte, Ontario, K0A 1A0, Canada

☎ 613-256-2018 ☐ as167@freenet.carleton.ca

For broadcast on the *first Saturday of the month* on the  
DX Partyline Program, Radio Station HCJB, Casilla 17-17-691, Quito, Ecuador.

### **Program 49 - September 1, 1995**

This is program number 49. This is also the 5th year of *Radio Stamps* here on the DX Partyline at HCJB. Next month will be my 50th program, and, I'm sorry to say, it will also be my last *Radio Stamps* feature. I'm retiring from the philatelic microphone and keyboard after five, fun-filled years of broadcasting here on HCJB, and a dozen adventure-filled years of writing articles, and bibliographies, and columns, all about the fun of collecting stamps on the topic of radio. It's getting harder and harder to find the time to produce a regular radio program, write a column, and reply to all the correspondence I receive from around the world. I need more time now for my family, and for my job as a classroom teacher.

I hope you'll tune in next month for my last *Radio Stamps* program. I'll have news for you about a special QSL card, from *Radio Stamps* headquarters here in Canada, to commemorate my 50th and last *Radio Stamps* program on HCJB.

Many thanks this month to Fábio Serra Flosi of Brazil for a great first day cover, issued in Brazil on May 5th, to commemorate the 100th anniversary of the first radio signal transmitted by Marconi. 1995 is certainly a great year to collect radio stamps. Keep your eyes open for new issues from around the world that commemorate the 100th anniversary of radio this year. The design of the new stamp from Brazil features radio waves along the bottom, in front of a portrait of Marconi, along with his early transmitter. The green, white and red colours of Italy's flag form the background of this distinctive postage stamp.

Joé Leyder of Luxembourg, and Franck Parisot of France, each sent along a postcard from the international amateur radio festival at Friedrichshafen in Germany. During the festival, attended by hams from around the world, mail that is posted there receives a unique amateur radio cancellation. Thank you Joé and Franck for these special souvenirs.

It was nice to hear from Ashok Kumar Tiwany of India, and Josean Arbizu of Spain. I enjoyed trading stamp items with you, and I'm sorry it took so long to reply to your letters. Thank you again for writing. Bill Welsh of the United States sent along a copy of his article on collecting radio stamps from the January 1994 issue of QST, the amateur radio magazine in the United States. Jerry Berg in the U.S.A. wrote with information about collecting verified reception stamps. Thank you Bill and Jerry for your information.

A special thanks to Rémy Porte of France for sending along copies of the French publication PHILA QSL INFOS. As I mentioned on my February program, this monthly magazine is devoted to being the most complete monthly paper in the world about all aspects of radio and telecommunications on stamps. Each monthly edition, with news and many illustrations, includes collecting tips, articles and short features about new postage stamps, meter stamps and cancellations, from around the world, on the topic of radio. Here's the mailing address for PHILA QSL INFOS, spelled capital P-H-I-L-A, then capital Q-S-L, and finally capital I-N-F-O-S. Write to Apartment 25, spelled capital A and p-p 25, Bat C, spelled capital B and a-t, then capital C. 1 Square de la Grand Charbonniere, spelled capital G and r-a-n-d-e then capital C and h-a-r-b-o-n-i-e-r-e. F, as in fox-trot, dash 35700, Rennes, spelled capital R then e-n-n-e-s, France. The address again is PHILA QSL INFOS, App. 25, Bat C, Square de la Grande Charbonniere, F-35700, Rennes, France.

Now it's time to announce the winners of the Marconi contest to mark the 5th anniversary in 1995 of the *Radio Stamps* program, here on HCJB. It's also the 100th anniversary of radio this year. The centenary of Marconi's birth was commemorated in Canada in 1974 was an unusual stamp. It featured a portrait of Marconi with a green head against the stylized and multi-coloured background of Signal Hill, at St. John's, Newfoundland, in Canada. To enter the contest, to win this psychedelic-looking stamp, listeners had to send me a postcard with the words "Marconi Stamp", along with the date of issue in Canada for the commemorative stamp in 1974.

The first winner is Gary Riley of Tasmania, Australia. Gary receives the unique Marconi stamp from Canada, along with a colour brochure from the Canadian Parks Service about the Marconi National Historic Site at Glace Bay, in the maritime province of Nova Scotia. The second and third winners are Alan Holder, from the Isle of Wight in England, and Mark Spat of New Hampshire in the United States. Alan and Mark each receive a mint Marconi stamp too. Congratulations to Gary, Alan and Mark. Your prizes are on their way to you by airmail.

Well, that's all for today's program. I hope you'll be listening next month to program number 50. It will be my last *Radio Stamps* program. I'm retiring from the philatelic microphone and keyboard to devote more time to my family, and to my job as a classroom teacher. Listeners next month will be able to write for a special souvenir QSL card, from *Radio Stamps* headquarters here in Canada, to commemorate my 50th and last program on the DX Partyline. I hope you'll tune in. Until next month, best wishes for good listening and collecting.

### **Program 49 - (Originally Recorded for September 1, 1995) November 4, 1995**

This is program number 49. It was originally recorded for broadcast on September 1st, but that tape has still not arrived at HCJB. This tape was sent by airmail on October 10 and I hope you're listening to it on November the 4th.

This is also the 5th year of *Radio Stamps* here on the DX Partyline at HCJB. Next month will be my 50th program, and, I'm sorry to say, it will also be my last *Radio Stamps* feature. I'm retiring from the philatelic microphone and keyboard after five, fun-filled years of broadcasting here on HCJB, and a dozen adventure-filled years of writing articles, and bibliographies, and columns, all about the fun of collecting stamps on the topic of radio.
